Portfolio:

Summary:

Enthusiastic and motivated IT undergraduate with a strong foundation in frontend development and UI/UX design.

Education:

Bachelor of Science in Information Technology

Asia Pacific University

Expected Graduation: 2027

Technical Skills:

- Frontend Development: HTML, CSS, JavaScript, React.js, Tailwind CSS
- UI/UX Design: Figma
- Problem Solving: Basic DSA

Projects:

1. Responsive Personal Portfolio Website:

Designed and developed a portfolio site using HTML, CSS, and JavaScript to showcase projects and skills. Implemented a mobile-first design approach with a hamburger menu to ensure seamless accessibility across all devices.

2. Realtime chat app:

Developed a real-time chat app using Node.js, Express, and Socket.IO with features like live messaging, typing indicators, and a responsive interface. Designed a user-friendly front-end using HTML, CSS, and JavaScript, and implemented efficient back-end communication for seamless multi-user interactions.

3. Weather Application:

Developed a dynamic weather application using React and Axios to fetch real-time weather data from the OpenWeather API. Features include city-based weather search, geolocation-based weather fetch, temperature unit toggle (°C/°F), and a search history of the last five cities.

Certifications:

- Responsive Web Design (freeCodeCamp, 2024)
